Forecast for Saturday 25 Feb 2023

Weather: Clear spells overnight and a sharp frost likely. A bright start to the day with early sunshine but clouding over from the east, a few bright spells during the afternoon but cloud thickening, a light wintry shower is not out of the question during the afternoon around eastern mountains.

Chance of cloud-free hill tops above 600m: 90% falling to 70% as cloud develops.

Low cloud and visibility: Patchy low cloud above 500m during the morning will become scattered in the afternoon especially around the eastern Black Mountains. Visibility will be very good in the morning but will turn hazier later in the day and moderate or poor in any showers.

Meteorologist's View

Feeling cold out on the hills although when the sun is out there will be some warmth. Cool northerly winds especially in the afternoon will enhance the chill effect.

Recent rainfall: measured at Neuadd: altitude 353m
